Delivering Quality; A Passion for Service

We believe that removing limitations to the access of specialized treatments produces the best possible patient outcomes. Our expert pharmacists can work with you to create a formulation for any patient's unique needs—customized by strength, dose form, as a combination of compounds or as a substitute for hard-to-find, out-of-stock, backordered or discontinued medications.

**Our team is here Monday through Friday,
12 hours each day, ready to take your call.**

We have been doing business with Roadrunner Pharmacy for a couple of years now. Their phone staff and pharmacists are always courteous and knowledgeable. They have competitive prices and excellent delivery services. They have a wide variety of compounds. We have been very pleased with both their services and products.

Orchard Animal Hospital
Dallas, OR

A Commitment to Excellence

To ensure potency, sterility and stability, Roadrunner Pharmacy maintains the highest quality accreditations.

We are compliant with USP <795> and <797> standards and are accredited by the Pharmacy Compounding Accreditation Board (PCAB) for compliance with PCAB pharmacy compounding accreditation standards.

Our Quality Assurance

Only the Highest Quality Ingredients

We use USP/NF Grade APIs (Active Pharmaceutical Ingredients) and require all vendors to supply a Certificate of Analysis for every lot/batch. We routinely test APIs to ensure quality.

Comprehensive SOPs

Written SOPs ensure that every medication produced is accurate and meets our standards.

Precision Equipment

Our pharmacy invests in state-of-the-art equipment to ensure precision and safety at every step of the compounding process.

Quality. Choice. Innovation

The right people, best ingredients and a best-in-industry testing and quality assurance program come together to create the very best compounded medications, service and care.

ONE EASY CLICK

Easy to administer to cats!

Gentle on cats' ears, easy to apply

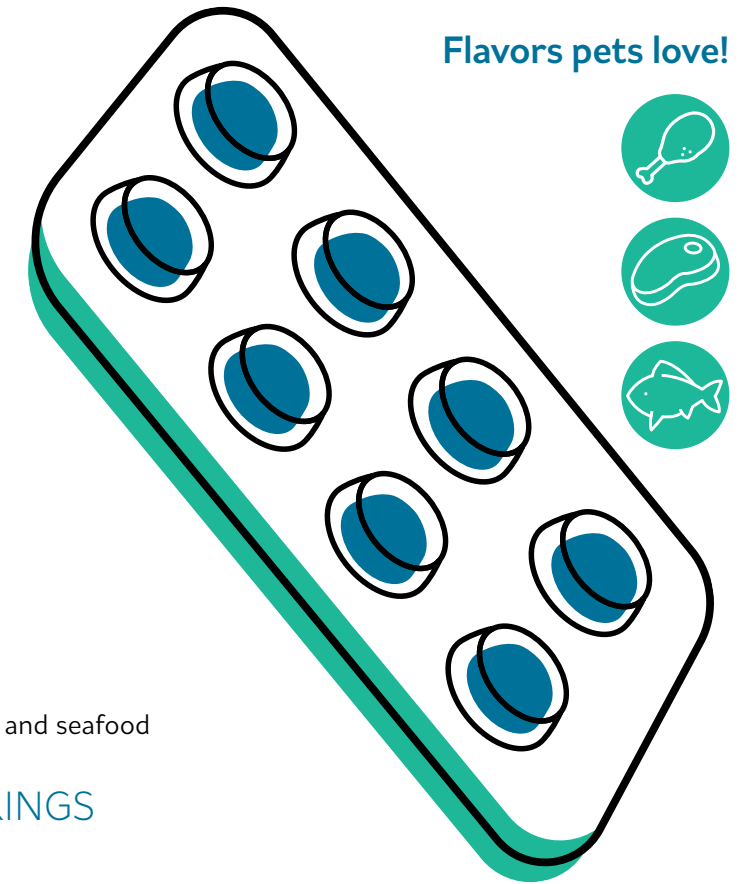

NEW!
Transdermal ClickDose™ Pens

These new pens make administering transdermals easier, more precise and mess free.

- ✓ **CLICK BUTTON DESIGN**
Eliminates errors for accurate, worry-free dosing
- ✓ **SIMPLE TO APPLY**
Soft silicone tip is easy to apply, clean and feels natural on a cat's ear
- ✓ **LEAK-PROOF CAP**
Medications stay fresh and don't dry out—plus, no more messy hands or furniture

FRESHER. SOFTER.

Flavors pets love!

IMPROVED!
Chews

Our improved Chews make dogs and cats think they're enjoying a tasty treat rather than taking medicine.

- ✓ **HIGHLY FLAVORFUL OPTIONS**
Available in palatable flavors such as: chicken, beef and seafood
- ✓ **DOZENS OF MEDICATION OFFERINGS**
Available in tasty treat form
- ✓ **ADVANCED FRESH-LOCK SEAL PACKAGING**
Chews are guaranteed to stay soft with maximum stability until dispensing

Transdermal ClickDose™ Pens – Medication Offerings

0.625mg 2.5mg 3.75mg 5mg 7.5mg 10mg

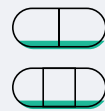

AMITRIPTYLINE HCl		✓	✓	✓	✓	✓
AMLODIPINE (FROM BESYLATE)	✓	✓	✓	✓	✓	
FLUOXETINE (FROM HCl)		✓	✓	✓	✓	✓
METHIMAZOLE	✓	✓	✓	✓	✓	✓

Chews – Top 15 Medications

AMLODIPINE (FROM BESYLATE)	CISAPRIDE	METHIMAZOLE
ATENOLOL	DIETHYLSTILBESTROL	METRONIDAZOLE (FROM BENZOATE)
BENAZEPRIL HCl	ENALAPRIL MALEATE	PREDNISOLONE
BUDESONIDE	FLUOXETINE (FROM HCl)	THEOPHYLLINE
CHLORAMBUCIL	GABAPENTIN	URSODIOL

Top Dose Forms

We're dedicated to improving animal health and elevating the standard of care through innovation. That's why we continually research and develop new dose forms to create a better dosing experience for both the patient and the owner—because we know easier dosing means improved compliance and happier, healthier patients.

Flex Tab

The correct dose is only a snap (or two) away with our Flex Tabs. Scoring on both sides offers four dosing options to meet patients' needs. Plus, one 30-count order offers up to 90 doses.

Mini Melt

When a patient refuses to take a pill or has a condition that makes swallowing medications difficult, our Mini Melts are the answer. Mini Melts are specially designed to dissolve rapidly in saliva for simplified dosing. Simply place in your patient's mouth or crush, sprinkle over food and watch it disappear.

Mini-Tab

Precision dosing for smaller animals. 7mm easy-to-swallow tabs can be reduced further with a tablet cutter for added versatility.

ezPress Tablet

An innovative way to add easy-to-swallow dosing flexibility to treatments that's ideal for smaller animals. Simply apply pressure to the tab to evenly split.

Tablet

Larger compressed tablets pack more medicine into fewer doses, making it a go-to solution for larger animals—easy, fast and consistent.

IMPROVED!

Soft Chews

Our improved Chews make dogs and cats think they're enjoying a tasty treat, rather than taking their medicine. Dozens of medications are available in three highly tested flavors that are well-received by patients. Plus, our NEW fresh-lock seal packaging guarantees Chews stay moist with maximum stability until dispensing.

Capsule

Roadrunner's highest-quality compounded medications can be customized to the exact dose needed in easy-to-administer capsules. Versatile dosing options for more clients.

Oral Liquid

Our compounded oral liquids begin with high-quality active ingredients and end with stability testing for prolonged shelf life. We offer a variety of sizes and 35+ flavor options to make dosing even easier.

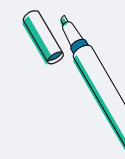

OTI-PACK®

Prepared in a lanolin base, each OTI-PACK features a pre-filled 3ml syringe with otic applicator for easy application. OTI-PACKs save your clients time and improve compliance.

Ophthalmic

Roadrunner sterile ophthalmic solutions, suspensions and emulsions, with proprietary delivery mechanisms, are designed to ensure convenient consistency.

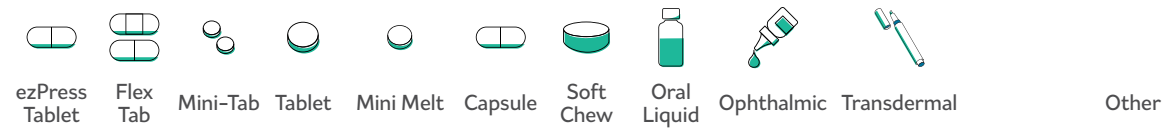

NEW!

Transdermal ClickDose™ Pen

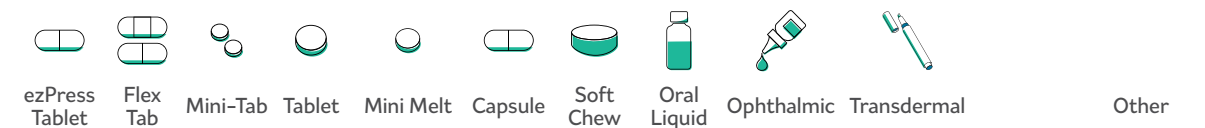

ClickDose™ Pens make administering transdermals easier, more precise and mess free. A foolproof design eliminates errors by dispensing a precise amount of medication with one click. It's that easy. Plus, its silicone tip feels like a finger for stress-free dosing and leakproof cap ensures medication stays fresh throughout use.
